

Shavalino Fayola Bertha Pangaribuan

Cendana Residence, Ciater, Tangerang Selatan • +62 851 5607 2302 • duskfay@gmail.com • github.com/richfayoo

Semester 6 **Informatics student at Universitas Pembangunan Jaya** with academic experience in software development, hackathon projects, and cybersecurity. Familiar with Python, PHP, JavaScript, MySQL, Linux, and web application development through coursework and collaborative projects. Detail-oriented, analytical, and eager to continuously learn and contribute in Software Quality Assurance or Cybersecurity roles.

Education

UNIVERSITAS PEMBANGUNAN JAYA

Bachelor of Informatics (Expected Graduation: 2027)

3.57/4.00 GPA

Skills

Programming: Python • PHP • JavaScript • HTML • CSS • MySQL

Frameworks & Tools: Git • GitHub • XAMPP

Operating Systems: Kali Linux • Ubuntu Linux • Windows

Cybersecurity: SIEM • Log Analysis • Web Security • Security Monitoring • Incident Analysis

Soft Skills: Adaptability • Problem Solving • Teamwork • Leadership • Communication • Time Management

Project

ADAPTIVE WEB-BASED HONEYPOT FOR BRUTE FORCE & SQL INJECTION DETECTION

Research Project

- Developed a web-based honeypot using PHP Native and MySQL to simulate login and search functionalities.
- Recorded attacker activities including IP Address, Timestamp, Username, Password Attempts, SQL Injection Payloads, and Attack Frequency.
- Conducted Black-Box Testing to validate application functionality.
- Performed security testing using Hydra, SQLMap, and Burp Suite.
- Analyzed collected logs to identify brute force and SQL injection attack patterns.

COUNTROL – AI FINANCIAL ASSISTANT

Hackathon Project

- Collaborated in developing **Countrol**, an AI-powered personal finance application that combines expense tracking with an AI financial assistant.
- Contributed to the ideation process by defining product concepts and user needs.
- Developed the frontend interface for the application.
- Worked closely with team members to translate ideas into a functional prototype.
- Participated in designing an intuitive user experience for daily financial management.

WAZUH SIEM LABORATORY

Python for Cybersecurity Project

- Collaborated in developing a Security Information and Event Management (SIEM) application using Python.
- Participated in implementing event collection and rule-based alert mechanisms.
- Assisted in validating system functionality through testing scenarios.
- Analyzed generated security events and alerts.
- Worked collaboratively with team members throughout the project.

Organizational Experience

HEAD OF COMMUNICATION AND INFORMATION DEPARTMENT

Himpunan Mahasiswa Informatika UPJ (HIMAFORKA)

- Coordinated digital communication strategies for student activities.
- Managed publications, documentation, and organizational information.
- Collaborated with multiple departments to support campus events.
- Led communication planning within the organization.

COORDINATOR OF PRAYER AND MINISTRY (PUBLIC RELATION) DIVISION

PMK Universitas Pembangunan Jaya

- Coordinated weekly prayer sessions and member engagement activities.
- Supported event planning and volunteer coordination.
- Fostered communication and collaboration within the organization.

Certifications

- **IT Fundamentals for Cybersecurity UPJ** — Coursera (Issued Aug 2025)
- **Applied Natural Language Processing UPJ** — Coursera (Issued Aug 2025)
